

The bright choice

Go emission-free for the children's and communities' health.

We are Lion Electric: A beacon of innovation for school and activity transportation. We are North America's leading manufacturer and distributor of all-electric, zero-emission school buses and activities buses.

THE ROAD

Given the current climate challenges, we believe the transition to all-electric vehicle will lead to major improvements in our society, environment, and overall quality of life. Lion is supporting the climate pledge, and our goals are aligned with the Climate Mayors': improve air quality without foregoing the safety of the children and operators.

Knowing that the technology and the Lion vehicles are available now, there's no reason to keep exposing the children, the drivers and the mechanics to diesel fumes that put their health and development at risk.

Purpose-built to be 100% electric –

Lion buses are purpose-built and committed to zero emission. We build our own chassis, body, battery packs and design our own proprietary operating software. Our buses are not retrofitted diesel vehicles. They are born to be electric.

Discover Lion's all-electric school bus fleet

LionC

All-electric Type C
School Bus

MAXIMUM POWER

Up to 335HP - 250kW

RANGE

100 mi. - 125 mi. - 155 mi.

BATTERY CAPACITY

Up to 210 kWh

CHARGING TYPE

Level II (J1772) & III (CCS-COMBO)

LionA

All-electric Minibus

MAXIMUM POWER

Up to 200HP - 149kW

RANGE

75 mi. - 150 mi.

BATTERY CAPACITY

Up to 168 kWh

CHARGING TYPE

Level II (J1772) & III (CCS-COMBO)

LionD

All-electric
Type D School

MAXIMUM POWER

Up to 350 HP

RANGE

100 mi. - 125 mi. - 155 mi.

BATTERY CAPACITY

Up to 210 kWh

CHARGING TYPE

Level II (J1772) & III (CCS-COMBO)

Operating in cold climates since 2016

Lion Electric school buses have been tested and proven in all types of warm and cold weather conditions.
